STAT FROM: [REDACTED]

SUBJECT: Status Report of Various Documents

John:

Now that the House Appropriations Committee Hearings are over, we are in the process of making sure that paperwork is done and returned to the House Appropriations Committee on time. Therefore, I thought it might be useful to give you a status report as of today as to where we are with the various documents.

NFIP Hearing (11 April)

STAT Testimony: To be edited and returned to the House by close of business today. (Noon on Monday, if necessary.) On Wednesday we dispatched copies of the original to Inman, [REDACTED] In addition, we asked Carlucci if he wished to see it but he declined. We will have the edited version for you to see this afternoon before we send it back to the Hill.

Questions for the Record:

The majority of the questions are to be answered and returned to the House Appropriations Committee by next Tuesday, with the remainder a week from then. We sent the appropriate portions of the question pack to Carlucci, Inman, [REDACTED] for preparing the proposed answers. In addition, we have distributed copies of the Questions throughout the RM and CT Staffs for comment. We will have the consolidated answers for your review by noon Tuesday, prior to sending them to the Hill. One problem in the Questions for the Record is the supplementary Burlison questions which Snodgrass says, as of last night, he might have thrown into his safe--by accident. We will obtain a copy of these today and dispatch as appropriate to obtain proposed answers.
